FOREWORD

The 1964-65 Handbook of Information will serve by providing factual information and data. But this Handbook may serve more significantly by raising questions. Study this Handbook alongside those published in the last five years. In the comparisons and contrasts of figures and data, your feelings may be those of alarm and apprehension. Figures and statistics are not the whole story, but they do give some indication of commitment or lack of commitment to the purposes of the kingdom of God. If this year's figures and statistics lead us to a careful search for answers to questions relating to the need and methodology toward an increase in numerical growth of the church of Christ, this Handbook will have served well.

Orlando A. Waltner, Executive Secretary
